

## The Unexpected But Precise Experience *Release & Reveal Experiential Encounter in Queenstown & Singapore*

New Voice invites you to attend a two hour Experiential Encounter using **The Coaching Game** from Points of You™.

**The Coaching Game** is a powerful tool used to generate clear, quality communication between people. We call it a game because when we play, 1) we dare to say things that we normally wouldn't say 2) we take chances. Moreover, the play context is a safe one, enabling each player to choose how actively to participate and share.

This experience is guaranteed to engage, inspire and lead to action. You will experience elements of photo-therapy to **release** thoughts and wishes and utilise experiential learning to **reveal** deeper insights into the countless ways you can achieve your dreams. A reflection session at the end of the two hours makes sure you create sustainable change and take the right action.
